

# New Homes for Small Sites

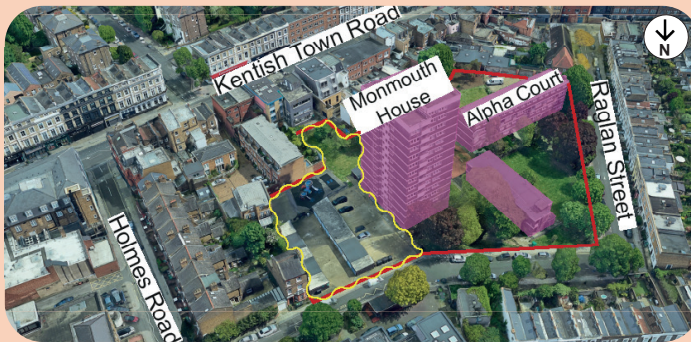

**Could additional new homes be built on your estate?**

## Raglan Street Estate

Is there a small space on Raglan Street Estate that could be improved by building new homes for local people? What improvements to the wider estate could these homes lead to?

We're looking at opportunities across the whole of Camden to provide desperately needed new homes and through this work are looking again at our previous proposals to build new homes on Raglan Street Estate.

**This is about building new homes on infill sites and not about replacing homes.**

-  NO CHANGE to existing buildings
-  Potential infill site(s) - we want to know if there is anywhere within this area that you think new homes could go
-  Estate Boundary

**We want to know what you think of the idea of additional new homes on your estate and what improvements you think they could bring to your estate.**

**You know your community best so please have your say by attending our pop up event:**

 **6th September 2022**  **Raglan Street Estate**  **from 4.30 pm**
